INTRODUCTION

I'm a professional Senior Full-Stack Developer with years of experience in developing high-quality web applications. I specialize in building scalable and efficient solutions using the latest technologies and best practices.

EDUCATION

Bachelors in Software Engineering

2015 — 2019

COMSATS Institute of Information and Technology Islamabad

3.01 CGPA

SKILLS

- **Web Development**
 - ✓ React.js and Next.js
 - ✓ MUI, Chakra UI, Tailwind CSS, HTML5, CSS3, TypeScript, and JavaScript for web development
 - ✓ Git, GitHub, and Bitbucket for version control
- **Backend Development**
 - ✓ Node.js, TypeScript, RESTful API, Express.js, GraphQL
 - ✓ MongoDB, MySQL and PostgreSQL for database management
- **Database**
 - ✓ MongoDB, MySQL and PostgreSQL
- **Other** Stripe, SaaS, e-commerce, CMS

WORK EXPERIENCE

FrontEnd Developer

Jan 2019 — Nov 2021

Iplex (On Site, Pakistan)

As a FrontEnd Developer at Iplex I bring extensive experience across diverse projects, leveraging technologies such as React.js, MUI, TypeScript, Next.js, Chakra UI, and various front-end tools. I specialize in creating responsive, interactive, and visually appealing user interfaces while optimizing web performance and ensuring cross-browser compatibility.

Senior / Lead FrontEnd Engineer

Nov 2021 — DEC 2023

Tier Five Digital (Remote, USA)

- At Tier Five Digital, I assumed a leadership role in the conceptualization and implementation of pivotal core functionalities.
 - My primary focus lay in the meticulous development of subscription handling mechanisms.
 - Onboarded and mentored 10+ remote engineers, leading to a 20% increase in team productivity.
 - Acted as a key decision-maker in the development and launch of 5 new products, each meeting planned KPIs within the first quarter post-launch.

FullStack Developer

Dec 2023 — Present

Coded Harmony (Pakistan)

As a full-stack developer, I bring extensive experience in various projects, utilizing technologies such as React.js, MUI, TypeScript, Next.js, and Chakra UI for the front end, and Node.js, PostgreSQL, and MongoDB for the back end. I specialize in creating responsive, interactive, and visually appealing user interfaces, as well as building robust server-side applications. I excel in optimizing web performance, ensuring cross-browser compatibility, and collaborating closely with designers and other team members to deliver high-quality, seamless web applications.

INTERESTS

Preferred Areas of Focus: I'm passionate about software development, specializing in the MERN stack for streamlined web development.
